The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Dickerhof et al.

Dickerhof et al disclose aqueous coating compositions comprising melamine resins, optionally urea resins, one or more polyols and self-crosslinking polyacrylates which are seen to be copolymers (see claim 1 and column 5, lines 20-68).

These compositions are taught as suitable for coating foils and edges(see abstract).

Therefore, the reference anticipates the rejected claims.
